Some interior walls, particularly near the kitchen and fireplace, will be partially demolished to create an open layout and modify the fireplace area. New framing will be added as needed, including for the repositioning of the primary bathroom wall. Insulation will be installed in the ceiling for soundproofing, and new interior doors and trim will be added throughout the space. All surfaces will receive new drywall. Both bathrooms will have new tile work, including curb-less showers, floor tiles, and full tile surrounds. Finally, new flooring will be installed across the home, along with fresh interior paint for walls, ceilings, doors, and trim. Accessories such as cabinet hardware, closet rods, and shower glass will also be installed to complete the project.
