Alternative Automatic Fire-Extinguishing Systems and Commercial Cooking Hood Systems Contractor Registration & Field Requirements

All individuals or companies that employ individuals who physically work on, design, test, inspect, or install any part of an Alternative Automatic Fire-Extinguishing System and Cooking Hood Systems must be properly trained and qualified by the manufacturer to design, install, modify, maintain, test, and inspect that specific system either being provided or maintained.

Alternative Automatic Fire-Extinguishing System (AAFES) Design Submittals and Cooking Hood System and Equipment (CHSE) Contractor requires the following proof of certifications (*check all applicable for):*

- ☐ **AAFES & CHSE Plans and Submittals:** shall be prepared by the manufacturer or a properly trained and qualified person(s). Proof of certification required
- ☐ **AAFES AND CHSE Contractor Registration and Field Credentials:** Personnel that are installing, modifying, testing, cleaning, or conducting maintenance on automatic fire-extinguishing systems and/or cooking hood systems shall possess a valid certificate issued by an approved governmental agency or other approved organization for the type of system and work being performed. Certifications must be recognized by the manufacturer and NFPA applicable standards, or what is acceptable to Vail Fire & Emergency Services. Proof of credentials shall be readily available to fire code officials when requested.

- ☐ **Required Contractor Insurance:**
  Note: Per Ordinance 12, Series 2020

  Each contractor shall always be covered by the following insurance while performing construction work in the Town, at a minimum:
